hēilo is:

- **A RESPONSE TO GROWING PARENTAL NEEDS**

More and more families are seeking ways to provide clean and safe air for their children, especially in polluted urban environments.

- **AN INNOVATIVE PRODUCT ON THE MARKET**

A product that fills a gap in the market, giving you a competitive edge. Its uniqueness will help you stand out among other distributors.

- **A HEALTH-FOCUSED PRODUCT**

A greater variety of products increases the chances of attracting new customers.

- **A PREMIUM PRODUCT**

It increases the average shopping cart value, leading to higher profits.

**AN INNOVATION
THAT TAKES CARE OF
THE HEALTH OF THE
CHILDREN UP TO 3YO**

A product dedicated to :

- **PREMATURE BABIES**

Premature babies are more susceptible to respiratory infections and require special care regarding the environment they are in. Heilo protects them, especially in large gatherings of people.

- **CHILDREN WITH ASTHMA**

Childhood asthma is a chronic condition, and its symptoms can worsen in polluted air. Our air purifier helps reduce the risk of symptom flare-ups.

- **CHILDREN WITH RESPIRATORY ALLERGIES**

Children with respiratory allergies are sensitive to airborne allergens. Our air purifier helps create a cleaner environment, reducing exposure to allergens.

And for all parents who care about their little ones' health and want to provide them with clean air during everyday walks.

Our stroller air purifier is designed with maximum safety and modern technology to provide healthy air for infants and children.

TECHNOLOGY

- Double filtration: E11 filter and carbon filter
- Safe, soothing noise (up to 54dB)
- Temperature sensor
- PM sensor
- Filter quality sensor
- Battery consumption sensor

SAFETY STANDARDS

- CE marking
- Device compliant with EMC standards (Electromagnetic Compatibility)
- Meets the requirements of the RoHS directive
- Made from OEKO-TEX® certified fabric
- Features reflective elements, ensuring safety on the road
